

Freedom of Information Request Reference No:

I note you seek access to the following information:

Please provide a breakdown of Undetected Homicides from the 01.01.1999 to present.

Please include:

- A) Date recorded
- B) Name of Individual
- C) Gender if available within the Crime Recording Information System

Note: If any previous FOI requested for Undetected Homicides has been successful since 2009; please forward the appropriate link/s to the disclosure on the Metropolitan Police disclosure log.

DECISION

It has been decided to disclose the located information to you in full.

Homicide is a Home Office definition used by the MPS to record murder, manslaughter and infanticide on the MPS Crime Reporting Information System (CRIS).

'Undetected' could refer to homicides which are currently being investigated, 'Cold Cases' which are being reviewed prior to investigation by the Murder Review Group, homicides where the main suspect has died, homicides where the case was dropped subsequent to arrest and charge, homicides where the case was lost at Court or homicides where the defendant was released on appeal.

To record a detection under Home Office rules some action must be taken against an individual, for example by means of a charge, or where the suspect has died, clear evidence exists of their involvement.

It is important to note that a status of undetected does not mean that the MPS has stopped any active investigation into the crime.

Q1. Please provide a breakdown of Undetected Homicides from the 01/01/1999 to present date, (inc Date recorded, Name and Gender of Individual).

A1. A breakdown of MPS Undetected Homicides, (including recorded date, ethnicity, gender & apparent age), from 1 January 1999 to 25/9/2011 is attached at the end of this response.

NB Post 2003 the MPS refined the process of recording homicides following changes to Home Office counting rules.

The information shown is an accurate combination of the 2 systems used by the MPS to record homicides.

I attach the link to the MPS Publications site for your further information:
