Stops and Searches Monitoring Mechanism

Guidance Notes

These are the latest stops and searches figures, the date of download from the Stops database is shown on cover page. Numbers are likely to increase as boroughs continue to enter stops and searches onto the database system.

Borough shown is location of search and not necessarily the borough of the officer conducting the search.

Westminster figures are the sum of searches conducted in Westminster North, Westminster Central and Westminster South.

Population data is unavailable for individual Westminster sectors. Heathrow population data is also unavailable as it has no resident population.

The ethnicity of persons stopped and searched within the central London area are unlikely to reflect the resident population due to large numbers of British and foreign tourists in this region.

Calculations on very small sample sizes (particularly female and 'other' ethnic groups, or low stop and search and arrest numbers) are unlikely to reflect the true nature of stop and search activity in certain boroughs. For example if 4 people were searched in a borough and 2 were arrested, this would lead to an arrest rate of 50%, but with such a small sample size conclusions should not be drawn on this figure.

This data excludes stops carried out under Section 43 of the terrorism act.

Glossary

Section 44 Terrorism Act 2000 (sec44)

Granted by a Chief Officer where they believe the authority is expedient to prevent acts of terrorism. An authorisation allows an officer in uniform to stop and search a

- vehicle or persons in or on the vehicle
- a pedestrian/anything carried by a pedestrian.

MPS use of Section 44 ended on July 8th 2010

Section 60 Criminal Justice & Public Order Act 1994 (sec60)

Where an authorising officer reasonable believes that serious violence may take place or that persons are carrying dangerous instruments or offensive weapons without good reason they may authorise powers for officers in uniform to stop and search any person or vehicles within a defined area and time period.

*Stop and Account Where an officer requests a person in a public place to account for their actions, their behaviour, their presence in an area or their possession of anything.

Stop and Search (S&S) This is when a police officer stops a member of the public and searches them. The police can only detain members of the public in order to carry out a search when certain conditions have been met. Search powers fall under different areas of legislation which include searching for

- stolen property
- prohibited articles namely offensive weapons or anything used for burglary, theft, deception or criminal damage
- drugs
- guns

Historically searches of unattended vehicles and vessels have made up a very low proportion of search activity.

PACE and Other Stops and Searches

Stops and Searches under PACE (Police and Criminal Evidence Act), S23 Drugs Act, S47 Firearms Act plus a very small number not included in the other categories (e.g. s163 Road Traffic Act)

Ethnic Appearance

The ethnicity of the person stopped as perceived by the officer.

For further information on the mapping of 4+1 groupings to 16+1 census data please see HO report Statistics on Race and the Criminal Justice System 2004 (Appendix B) at <http://www.homeoffice.gov.uk/rds/pubsstatistical.html>

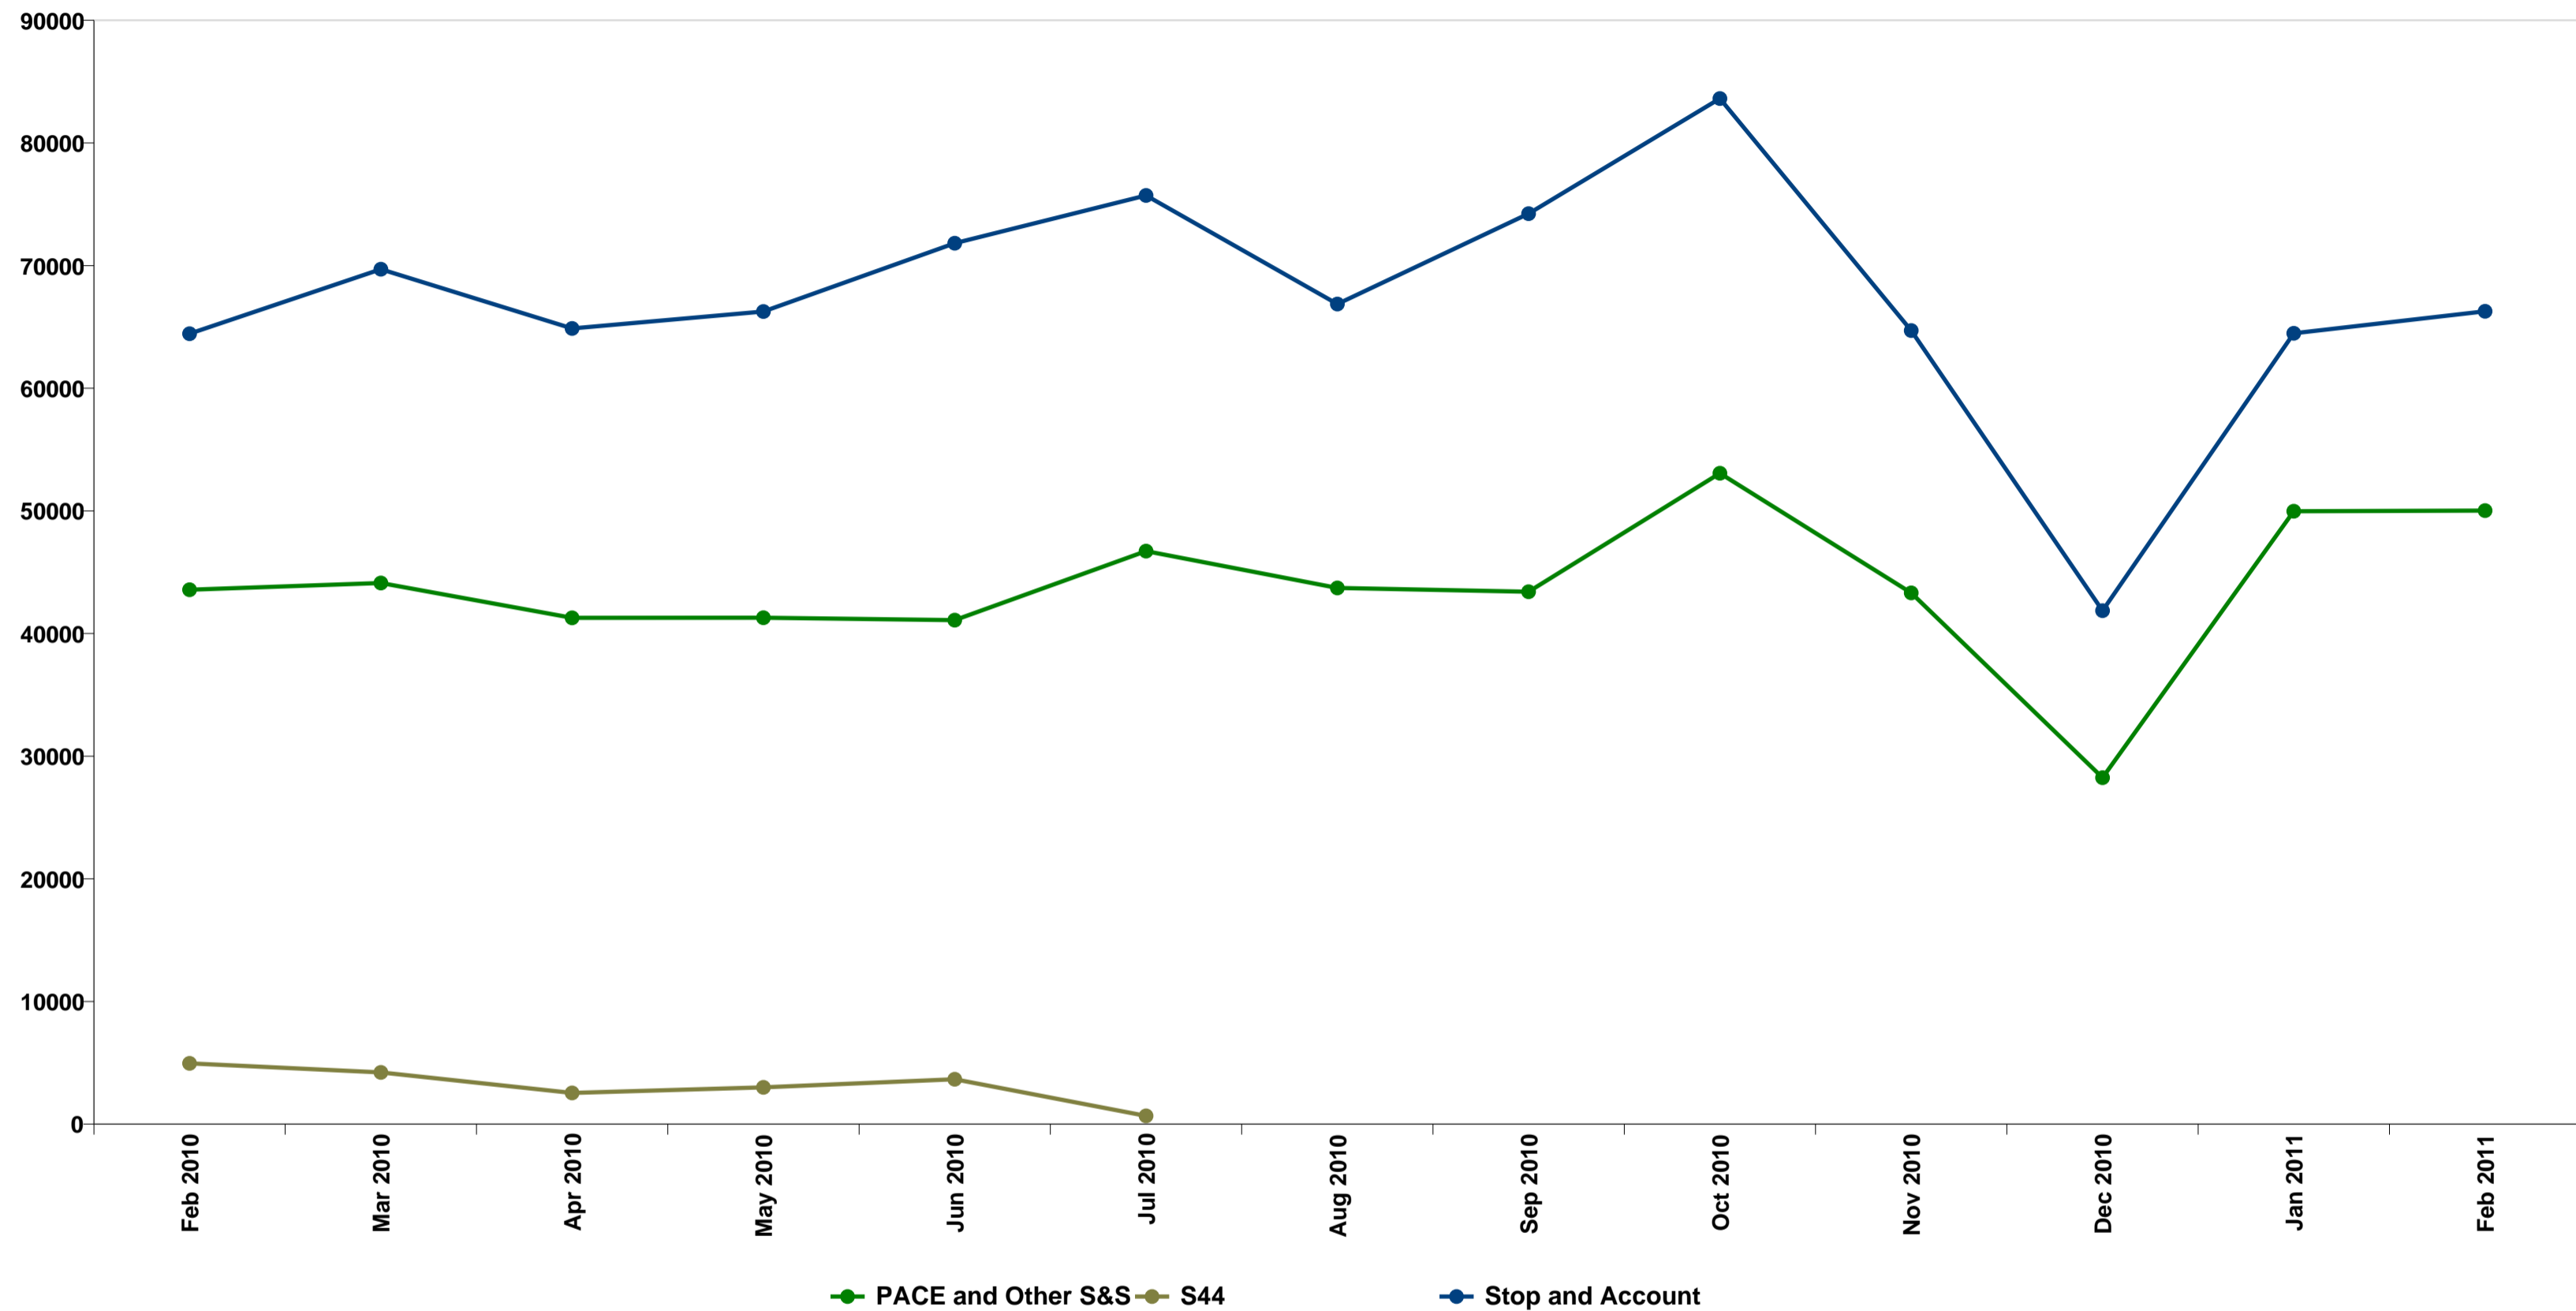

Self Defined Ethnicity (SDE)

The ethnic group as defined by the person stopped (National Census categories).

Arrest Rate Percentage rate which is determined by dividing the number of persons arrested resulting from searches by the total number of persons searched.

All Searches & Stop and Account* excluding Section 60
