

Freedom of Information Request Reference No:

I note you seek access to the following information:

In October 2015, the MPS revealed under Operation Grange that there had been 8,685 sightings of Madeleine McCann around the world since her disappearance.

Please could you list the separate countries that she has reportedly been seen in.

I do not want a list of all 8,685 sightings but merely the individual countries that people claim to have seen her. I do not require how many sightings there have been in each country as I know this would take too much time.
