The MPS constantly quality assures its data capturing processes. During one of these regular reviews a number of TASER forms were identified that had been sent to a redundant mail box. Forms relating to 12 deployments in 2013. Taser deployment figures for 2013 have been updated and resulted in 8 boroughs seeing a slight increase in deployments. The Taser capturing process has been rectified and steps taken to prevent this from happening again. The MPS apologises for the errors.
